

Rooted in Science™

COLOR

KNIFE® PLUS (Rapid Green)

The new and advanced formulation for improved color and growth, extended greening, increased uniformity, quick availability and improved rooting for fine turf. Encourages healthy plant development under normal and extreme environmental, chemical and mechanical stresses.

P-48 (Phosphorus)

P-48 is a water-soluble phosphate fertilizer formulated from the highest quality materials. P-48 is essential for increasing PO_4 for rooting and energy.

50

TURF PLAYBOOK FOCUS ON THE FIFTY

Focus on the high traffic areas of your field, like the fifty yard line, to reduce time and expenses. Two applications down the center of the field is better than one on the entire field.
